

I am a recent graduate of the U of M's Full Stack Web Development program. After the program came to an end, I have been taking some time to myself to solidify my knowledge and work on my own projects outside of school.

Am just starting to look for a professional setting to bring my newly learned skills. I am looking for mentorship in this position as well as the ability to contribute on projects. I am excited to do work in which I love!

Thank you for your consideration!
